

# Corporate Partnership Program

Unique but United is ASCA's signature line. It represents not only the differences between each ASCA jurisdiction, but also our shared vision and commitment to forming partnerships to further and advance the field of corrections.

The Corporate Partnership Program represents ASCA's desire to grow the reach and influence of the association while also expanding the circle from which advice is sought, experiences are shared and relationships are formed.

The program offers three partnerships levels:

Bronze—\$5,000

Silver—\$25,000

Gold—\$50,000

Large or small, for profit or not, there's a partnership level that will allow your organization to participate with ASCA in meaningful ways.

Please take a look at the summary of benefits and more detailed list of benefits by partnership level to determine which level best fits the needs of your organization.

ASCA looks forward to working with your organization to advance the field of corrections and make our facilities and communities safer.

## Corporate Partnership Program benefits by participation level.
